# PASSION FOR PRIME

20  
24

ONE OF THE LONGEST  
RUNNING WAGYU EVENTS  
IN THE UNITED STATES

*celebrate a passion - celebrate a way of life*

JUNE 8<sup>TH</sup> • SALINA, KANSAS

EVENT AND SALE MANAGED BY  
JAMES DANEKAS & ASSOCIATES

for updates, digital catalog, videos & more, visit:

[WWW.JDAONLINE.COM](http://WWW.JDAONLINE.COM)

(530) 668-1224

### SALE LOCATION

*The sale will be held at:* Farmers & Ranchers Livestock - (785) 825-0211  
1500 W. Old Hwy. 40 Salina, Kansas 67401

### ACCOMODATIONS

*The Headquarter hotel for the sale will be:* Hilton Garden Inn Salina  
3320 South 9th Street, Salina, Kansas, 67401 (785) 309-0440

### TRANSPORTATION

Wichita Dwight D Eisenhower National Airport (ICT) is located 94.6 mi from the Farmers & Ranchers Livestock (Auction Location) and Kansas City International Airport (MCI) is located 187 mi from the Farmers & Ranchers Livestock (Auction Location)

### HERD HEALTH

- All cattle are up to date on vaccines and general herd health.
- Any additional tests and/or health paper expenses needed (other than the general) for transportation will be the buyer's responsibility. A vet will be on site sale day to write up any necessary interstate health papers which is complimentary to the buyer.

### GENETIC CONDITIONS

- All cattle and/or genetics selling in this sale are free of any and all known genetic conditions unless otherwise stated within each individual lot's footnotes within this catalog, if tested free after catalog is printed, results will be available on the supplement sheet.

### TERM & CONDITIONS

- All sales are final and must be paid before shipment can be made. Absentee buyers & internet buyer payments can be wired to the sale management's custodial account before cattle are released to the buyer.
- Semen/embryos will be released to the buyer once payment has been made. Shipping arrangements and costs for semen & embryos are the buyer's responsibility. Semen and Embryos sells per unit/embryo times the number within the package.
- Conception rate of all embryos is not guaranteed unless individual sellers determine so - this information will be found within each individual lot's footnotes within this catalog.
- Sale management is not responsible for any embryo conception and/or pregnancy guarantees. Any discrepancies are between the buyer and the seller.
- Shipping expenses of any and all live animals will be the buyer's responsibility - seller and buyer will work together to establish all shipping arrangements. All lots become the buyer's risk once purchased. After purchase, all costs are the buyer's responsibility. All costs for exporting lots are the buyer's responsibility and expense.
- Any errors, updates, or changes in information contained in this catalog will be announced from the auction block and/or will be included on a supplement sheet on sale day. Announcements from the block take precedence over the catalog and any prior released information.

### LIABILITY

- All persons attending the sale and related functions do so at their own risk. James Danekas & Associates, Inc., its employees, all sale representatives (including the Farmers & Ranchers Livestock Facility) and sale consignors assume no liability, legal or otherwise, for any accidents, damages, or injuries that may occur.

CANT MAKE IT? - BUYING INTERNATIONALLY? *Bid Online*

**LiveAuctions.TV**  
2.0

\*Attention International Buyers - please call to set up account

Go to [www.LiveAuctions.tv](http://www.LiveAuctions.tv). Please note that you do NOT need an account to watch the auction, but you do need to register an account and request a buyer number if you wish to bid. If you have not created a new account since September 1st, 2020 you will need to click "Register" in the top right corner of the homepage and create a new account. Once you have completed the form on this registration page and hit the "Register" button you will receive an e-mail with a place to click on to verify you have entered a valid e-mail address. Once you have completed this registration process, find the auction you are interested in on the homepage and click on it (sales are listed in chronological order). You should then see a box that says Login. Now that you have an account with LiveAuctions just type in your E-mail Address and Password. You will now see a hyperlink at the top that says "Request a Buyer Number". The first time you request your first buyer number on LiveAuctions it will send you a text message with a verification code in it. Type the code from the text message into the area requiring it and you will then see your name along with a buyer number listed at the top of the webpage where the live video is and you will be able to bid. You will only have to complete this two-step verification process one time. After that you will be able to immediately request a buyer number on any auction without verification through an e-mail or text message again. LiveAuctions no longer requires an app. If you wish to view/register/bid on a smartphone just type LiveAuctions.tv in whatever web browser you use. The registration process is the same as it is on a desktop computer, but the website is built mobile friendly. Click on the three lines in the top right corner to access the menus.

Bidders who are successful in making purchases will be contacted by the ranch after the auction to settle payment and discover your shipping plans.

If you need help registering to bid or to view the auction please call Technical Support at (682) 816-4900 or e-mail us at [TechSupport@LiveAuctions.tv](mailto:TechSupport@LiveAuctions.tv).

• The sire of this female is a recessive free son of Mayura Itoshigenami JNR. JNR is a world renowned proven sire recognized as the leading marbling Wagyu bull with breeding values supported by extensive carcass records collected by third party assessors. He has 1412 registered progeny and has impressive qualities with Carcass Wt of +21 kg (98% accuracy), Eye Muscle Area of +7.7 (97% accuracy), Marble Score of 3.4 (97% accuracy) and Marble Fineness of 0.50 (91% accuracy). His dam adds even more value with superior growth and maternal traits including a Milk EBV of +11. With an EMA in the top 10% and a Retail Beef Yield EBV in the top 5%, Lot 1 doesn't fall far from the tree of her super sire. With backed up proven superior marbling genetics through her direct dam (Shigeshigetani 30T and Sanjiro) she is the ultimate package of balanced traits of growth, maternal and carcass quality.

• Top 15% GL, top 10% Mature Cow Wt, top 15% Carcass Wt, Top 10% EMA and RBY – this female packs a punch. She's a paternal sister to Lot 1 making her a recessive free granddaughter of the great Mayura Itoshigenami JNR. His sire is bred to be balanced bring multiple traits to the table including marbling, growth and maternal ability. We add an extra punch of marbling power through the bloodline that builds her direct dam. Her dam, 51W, is an industry queen and proven more than most donor dams to produce exceptional carcass quality. She is a Michifuku daughter which makes her stem from the most proven prolific marbling foundation sire in the breed. 51W sold for \$35,000 back in 2018 and here is your opportunity to acquire a direct daughter.

• Talk about bringing the best of two worlds together...this heterozygous polled female is a direct daughter of the acclaimed 5U – the world's most dominate, proven polled Wagyu female. 5U is royalty and seen in the top polled pedigrees in the breed. In this female, 5U is married with one of the breed's most proven foundation sires and a bull that only gets better with more data. This female has it going on with a top 1% GL, top 10% BW, top 5% EMA and top 10% RBY EBVs. When it comes to her EPDs, shes on the right side for not only growth but also all carcass traits. She brings a ton to the table plus she's got an AA – 6 for SCD and Tenderness. If you are serious about polled genetics, you will not want to let this female slip by you.

• We all know the power of this female's sire, L0010. He not only has proven himself though his progeny on the rail, his progeny have set selling records at auction across the US, his daughters are making phenomenal females in production and when it comes to the data, his progeny are always in the top % of the breed for their EBVs. This female is no different. She is in the top 15% for Milk – something that this breed lacks, and in the top 20% for BFI in BreedPlan. When it comes to EPDs, she sits on the right side for all growth and maternal traits. This female is a true powerhouse whose maternal side brings to us a solid backbone of foundation genetics through Haruki 2 (direct sire of powerhouse – Shigeshigetani) as well as Itozuru Doi; two sires that are stepping stone sires of the breed.

• Back in 2018 the dam of this female sold for \$52,000 and she has been producing phenoms ever since. Suzito 3 is a direct granddaughter of the great WK Suzutani and a direct daughter of Itozuru Doi – the best of foundation bloodlines. This mating being offered pairs this donor with the who's who of the breed, N0100. N0100 is making waves internationally. One of his daughters was the top priced female at the recent wagyu Sekai sale in Canada at \$57,000 last summer. N0100 is well proven on both sides of his pedigree. His sire, breed legend G113 averages AUSMB 8.5 and 476kg carcasses from over 260 carcasses dating back to 2017 carcasses while his dam averages AUSMB 7.7 and 424 KG carcasses from 7 carcasses. He has excellent all-around Breedplan EBVs making him a sire for all occasions and is recessive free.

• In the top 10% in BreedPlan for marbling and in the top 3% in the US for IMF – mic drop. Unlike other Bond daughters, this one has some depth and stoutness to her – she’s that front pasture kind and one you will not want to miss. Her direct dam is similar in her type and kind and adds the power to the phenotype. The marbling ability stems from her super sire, Bond. He combines the breed’s top marbling, EMA and marbling fineness into one proven sire. Also, Bond double dips in traits as he also excels for calving ease.

• A homozygous polled female and not just that, she stems from the top polled genetics in the breed. This female is an AA/8 combo and when it comes to data, the US has more combined information on the polled genetics and as you can see, she looks great with an IMF in the top 10% with a carcass weight in the top 10% - more bang for your buck. Her dam is a direct daughter of polled legend 5U and her sire not only carries another polled legend in 52Y, he also is a grandson of international fullblood phenom, Mayura Itoshigenami JNR.

• **Sells with calf at side - 8A: Bull Calf at Side Born 3/29/2024 Sired by UNITED P0342**  
 • A two for one package here – this female sells with her United sired bull calf. This female is a daughter of Kanadagene 14/2 who is sired by one of the sought after and rarest bulls Kanadagene 100 a son of one of the best, if not the best female out of Japan Suzutani. DM100 is sired by Michifuku a breed leader and renowned worldwide. DM 100 is highly regarded in Wagyu herds in Australia and overseas (that is the limited amount that has his genetics available) – a Kanadagene 100 son and daughter commanded \$40,000 last summer in Canada. This female and her calf both sit in the top 10% for EMA and when it comes to this female's EPDs, she sits on the right side of the graph for growth.

• With EBVs in the top 15% for GL, in the top 4% for EMA, in the top 3% for RBY, in the top 5% for MarbleScore, in the top 10% for FTI, in the top 15% for F1TI and in the top 15% for BFI – you can't go wrong with this L0010 daughter. Beyond stellar data, this female has an amazing pedigree littered with some of the best the breed has to offer. As mentioned, she is a direct daughter of powerhouse sire, L0010. Just like this female, L0010 progeny excel in BreedPlan, on the rail, have set selling records across North America and are making the breeds most beautiful females in production. The direct dam pulls in the best of foundation genetics as her dam is a direct daughter to WK Shigeshigetani – a sire who excels in calving ease and EMA. Also present is WK Sanjiro – the breeds most proven marbling sire and a bull known to improve carcass potential in any pedigree he is present.

• In need of an extra punch of growth and maternal ability – this is the female for you. This Judo daughter sits in the top 2% for both Weaning Wt and Yearling Wt. This growth is coupled with superior maternal ability as she sits in the top 4% for Milk and the top 1% for Total Maternal EPDs. Along with these stellar EPDs, she has some of the best red genetics to make up her pedigree. Her sire, Judo, was imported from Japan in 1976. He is a total outcross of many of the bloodlines here in the US that was in the 1994 importation of reds. With limited semen, Judo genetics are highly sought after. On the bottom side we have a household name, Big Al and an original in Hikari. Both of these bulls are proven and along with Big Al comes his dam, red royalty, Akiko

• With a BW EBV in the top 15% and being on the positive side for Milk along with an REA EPD in the top 15% and IMF EPD in the top 35%, this female brings a lot to the table. Her sire is by one of the breed greats born here in the US, E703. Her direct dam is sired by an all-star when it comes to marbling and carcass quality – WK Sanjiro. It doesn't stop there... this female is recessive free and has as good of a SCD and Tenderness combo any animal can ever have with an AA/10. This is the type of replacement female that any program will get value from and one to have marked on sale day.

- **Pasture Exposed November 2023 to 3C 30T MEGUMI 034J**
- This female excels in calving ease with a GL EBV in the top 3% and a BW EPD in the top 20%. Her sire 533, indicates added growth ability in BreedPlan. 533 is a muscular bull out of the Kedaka line and should deliver good growth and a larger frame and his progeny have had superb marbling (80% of his steer offspring grading A5). Her dam sires by a past #1 marbling sire, Michiyoshi to add even more carcass merit to the mix. To top it off, she has an AA/9 combo for SCD and Tenderness.

• If you are looking for a female bred to do what this breed is known to produce then this is your gal. Many long time breeders and Wagyu specialists have said you can never have too much Yasufuku in a pedigree. Yasufuku Jr., is reknown as one of the few direct sons of the great Yasufuku available outside of Japan. "Jr." has been proven to have immense ribeyes, marbling and finesse of marbling. The testament to the breeding ability of this bull shows with the numerous sons being proven in World K's program. This female has the presence of Yasufuku not once but twice in her pedigree. His genetics are coupled with fellow breed great including WK Sanjiro and Itozuru Doi. If a pedigree of this stature can't improve carcass merit than no other can.

• This female is the ultimate in breeding. She is that famous cocktail of United on top of L0010 which is a dream marriage. Her direct sire is the sire behind the two North American top selling bull and female which sold for \$400,000 and \$325,000 for just half interest in 2023. L0010 is responsible for huge success with many of his progeny breaking high selling records across the country. Beyond these two breed superstars we also have the influence of WK Shigesigetani – a sire known for calving ease and huge EMA with superb marbling and foundation sire Michifuku – a true marbling marvel. All of these superstars make up this female's stellar pedigree. Her dam, 0506H, made waves when she sold for \$67,500 at the 2022 Passion For Prime sale. This donor dam is made just right from phenotype, to pedigree and to her stats in BreedPlan. This female is recessive free and boasts a top 1% in GL, top 20% for 400 Day, 600 Day Wt and Mature Cow Wt. She sits in the top 20% for Carcass Wt and top 15% for EMA. When it comes to her BreedPlan indexes, she sits in the top 5% for three of the four and top 15% for BFI. Take this superstar home and flush her or breed her your way and watch the success she brings to your program.

• Here we have another beautiful United daughter. This time we couple United with a female built by the Sumo Cattle Company in Australia. This dam is a F154 daughter going back to Itoshigenami himself on the bottom side. This dam's pedigree is true balanced breeding in that it brings both superb marbling as well as performance to the mix through these bloodlines. This all mixed with United is as superb a combination as any. United only adds value to the mix with more growth and eye appeal, plus a solid set of EBVs making United a multi trait phenom. This United daughter is in the top 1% for GL, top 5% for 200, 400 and 600 Day Wt. She also is in the top 1% for MCW, top 5% for CW and Marble Fineness as well as in the top 20% for MS. When it comes to Indexes, she boasts a top 1% SRI, top 5% FTI, top 10% FITI and a top 15% BFI. If you want a United female out of a dam that is as special as any, this is your girl!

• If you want to add value to any pedigree you add Itoshigenami. This female does just that as she double dips in the Itoshigenami department. Her sire Mayura L0010 is an Itoshigenami grandson whose direct sire is as famous as any and internationally known and to this day still holds the record for the highest priced semen in the world regardless of breed. The dam of this female is an own daughter of Itoshigenami going back to one of the most famous Bar R females in 5P. Beyond a beautifully constructed pedigree, this female offered here excels in BreedPlan with a top 5% BW EBV, a top 1% EMA EBV, a top 10% RBY EBV and a top 10% Marble Score EBV. With this breeding and set of numbers, you can pair her with many of the breed's top sires and create magic.

- The sire of this female is a double bred WK Sanjiro and in other words, better known as a true marbling machine. His maternal side brings to us Bar R 57T, a direct daughter of the original World K imports with very few progeny here in the US. With a dash of WK Kitaguni JR and Mlchifuku in the direct dam of the female's pedigree, these are solid high merit carcass bloodlines that place her in the top 20% of the breed for both IMF and REA while sitting in the top 25% for CW.

• This female is dual registered and has never flushed. APHRODITE 093K combines the tremendous phenotype and power shown in her sire PHOENIX 062G, an early Macquarie Wagyu Prelude son over a Sanjiro dam rooted in the Aizakura maternal line. PERSEPHONE 064H, her TF148 Itoshigenami dam, continues to be a valued embryo donor within the Old Stone Wagyu herd. APHRODITE 093K is from the Chiyotake maternal line and this female sits in the top 15% for GL EBV and in the top 15% for IMF EPD.

• AI'd 12-25-2023 to TF727 YOSHIZURU 1 (IMUFBTF727)  
 • This female is dual registered and has never flushed. MARGARITA 054G is a large framed cow with excellent mobility, and directly out of Lot 39, OLD STONE TEQUILA 014E. She is the son of OLD STONE LEGEND 021E, a Muddy Flats Cattle Company pairing featuring a line bred Kimifuku 3 sire, over a large framed TF149 Mitsuhiokura cow. She is in the top 25% for her IMF EPD and in the top 30% for her Milk EPD. MARGARITA 054G is due to TF727 YOSHIZURU from a service on 12/25/2023. TF727 is a Okumiya son directly out of a TF148 Itoshigenami daughter of Hikokura 1/10. Okumiya is 100% Tajima and the only Oku-Doi line genetics represented outside of Japan. TF727 is currently Okumiya's only registered progeny in both the US and Australia, and represents a valuable outcross for the breed.

• This female is dual registered and has never flushed. SELENE 089K is out of a full sister to lot 38 Old Stone Tequila 014E. Another decidedly balanced Chiyotake line female with exceptional length and balance from nose to tail, and with great feet and legs. She sits in the top 5% for GL EBV, to 20% for CW EBV, and in all growth EPDs is on the right side of the graph. PHOENIX 062G calves continue to set themselves apart with early growth and vigor, as well as a calm disposition.

• **Ai'd 10-19-2023 to OLD STONE VELOCIRAPTOR 053G (OLDFQ053G)**  
 • This female is dual registered and has never flushed. TEQUILA 014E represents some of the most powerful genetics to ever come out of Japan from the original live importation of animals in her immediate pedigree. The brood cow power of TF Chiyotake 8/1A and World K's Suzutani, complemented by the growth and milk of the sires ETJ001 Hirashigetayasu, and TF Itomichi 1/2, all backed by one of the earliest TF148 Itoshigenami Takeda Farms females! TEQUILA and her full sisters have been cornerstone cows for the Old Stone Wagyu herd and she sells today along with her massive Old Stone LEGEND 021E daughter MARGARITA 054G as Lot 34. She sells bred to Old Stone VELOCIRAPTOR 053G, a recessive clean outcross son by TF902 Kikufuji-Doi. TF902 is from the almost unknown 100% Tajima bull Morifuji, and directly out of a Takeda Farms cow sired by the exceedingly difficult to propagate Kikutsurudo TF146! VELOCIRAPTOR 053G was enrolled in Bubba Kay's Progeny Test #9 and represents a valuable outcross for the breed. It's time to party!

• Sells with calf at side - **39A** - will have calf by sale day - AI'd 9-26-2023 to **RAPID BAY BLUE CHIP (AF186317)**

• If you are looking to add some maternal ability to your red program, this beautifully made female will do just that. She sits at the top of the breed for milk. Plus, she also double dips in traits with extreme calving sitting at the top of the breed for CED. She sells bred and will have a calf at side. She is bred to Blue Chip, a past Champion of the World Akaushi sire. His pedigree consists of Ashwood Park Virile x Kotsukari x Judo x Shigemaru x Big AI x Tamarau x Akiko and we have true super star sire! The Akiko maternal that Blue Chip descends from is known as the premier carcass traits line in the breed. Akiko herself is the dam of proven sires Big AI, Heart Brand Red Star, TWA Kotsukari, and Come and Take It! This bull is sure to contribute a balance of carcass traits, growth, and conformation to his progeny.

• An own daughter of the original marbling leader himself, Michiyoshi! Michiyoshi semen has commanded huge selling prices in the past and just recently \$400 per unit. This female sports an AA / 9 combo for SCD and Tenderness, has extreme calving ease and when it comes to her pedigree, you can't come up with a better scenario. With legends building her maternal side including 068 and TF 151 with straight Takeda genetics coupled with yet another shot of 068 sprinkled with Sanjiro, this female is bred to have undoubtable marbling magic that she will pass onto her progeny. She reads well in BreedPlan with a BW EBV in the top 5%, an EMA in the top 10% and RBY in the top 15%.

• Rowe Eclipse R31E is a direct daughter of GK4 Rueshamaru himself pairing genetics from Rueshaw with Tamamaru and Dai 10 Mitsumaru's own daughter Kaedemaru. The dam of R31E, Rowe Ms Red Star, is sired by none other than Kalanga Red Star C402 pairing influences from Shigemaru, Akiko, Hikari, Judo, Namimaru, and No. 20 Homare. Further influences include Shigemaru and Hikari with a dam terminus of JVP Homare J30E known for her extreme length and structure.

• Top 15% or better for all growth, top 15% for Milk, top 5% CW, top 20% Marble Score and Marble Fineness, top 10% SRI and BFI and top 15% FTI and FITI – mic drop!!! This L0010 son is bred to be superior as we see in BreedPlan. He read just as good in his EPDs as he is in the top 5% for CW EPD and top 20% for IMF EPD, plus he is on the right side of the graph for all growth EPDs and Milk. This multi trait bull covers all the basis; maternal, growth and carcass. He is the complete package with a royal set of bloodlines to back these numbers up.

• Here we have the full brother to the last bull and yes, he's just as good in his pedigree but when we compare the numbers, this brother has the upper hand. This bull knocks out the park for growth with all growth EBVs in the top 10% or better, Milk in the top 20%, CW in the top 5% and when we come to his Index Values, he is in the top 10% for SRI and BFI and when it comes to both FTI and FITI he sits in the top 15%. For EPDs this bull sits in the top 15% for both WW and YW, the top 20% for TM, the top 1% for CW, the top 20% for REA and the top 15% for IMF. Any way you look at it, this bull holds tremendous value plus has a great look making him that front pasture kind that will make your neighbor jealous.

• The best of both worlds wrapped up into one fantastic package. The dam is one of 5U's most famous daughters and a household name when we talk about polled Wagyu genetics. The sire of this bull is the infamous United; a sire whose progeny hold the record for the highest selling bull and female in North America. This mixed with the best of the polled make as enticing a package as any and it doesn't stop there. This bull looks stellar in BreedPlan with a GL in the top 1%, growth traits in the top 15% and better and Index Values in the 10% including an SRI in the top 5%. The US EPDs read just as good with WW in the top 15%, YW in the top 10%, TM in the top 25%, CW in the top 35% and IMF in the top 15%.

• Here we have a paternal brother to the last bull through United; the super sire whose progeny sold for \$400,000 and \$325,000 half interest in 2023. The dam here is an own daughter of the best proven marbling sire this breed has ever seen, Sanjirou. These prolific marbling genetics are coupled with 30T – a proven US born Shigesigetani son that covers the bases when it comes to a balance of growth and marbling genetics. This bull has an EMA in the top 10% and RBY in the top 20% in BreedPlan while his EPDs read even better with both WW and YW in the top 20% and CW and REA in the top 10%.

• Tired of dehorning, then this is your bull. This homozygous polled bull will make your management protocol much easier. He is an own son of the great 27Y who is the best and most famous daughter of 5U – royal polled female that is found at the center of the most sought after polled Wagyu pedigrees in the world. If you want to subtract the horns and add pounds at the same time, this bull can do it. He sits on the right side of the graph for all growth EPDs as well as for CW and TM.

• A Bond married with the queen of all polled genetics...this may be even more exciting than Taylor Swift and that football player getting together. Not to mention, this tie of genetics makes sparks – just look at the EBVs and EPDs. This bull sports an EMA in the top 5%, RBY in the top 10% and BFI in the top 15%. When it comes to his EPDs he sits in the top 10% for CW and IMF. Don't miss out on this polled superstar and the value he brings to the table.

• Hello handsome...if this bull had nothing going for him other than his looks than he would still go far but that's not the case here. This bull has an amazing pedigree and set of digits to go along with it making him that complete package that every father wishes his daughter would bring home. He's an own son of the great F154 coupled with a direct daughter of the world famous Itoshigenmai JNR and some Westholme genetics to make this an even spicier mating. With a MS and MF in the top 15% and 10% and Indexes sitting in the top 15% and better, be sure to mark this bull in your catalog because he is going to be catching everyone's eye at the sale

• Top 15% EMA EBV, top 20% GL EBV and top 5% BW EPD, with a top 15% IMF EPD this is a very impressive individual. His sire is an LMR standout - The first harvested carcass from LMR Kitaguni 1441Y, 4247B, delivered the pictured ribeye that was one of the highest marbled carcasses at 52.03% IMF that Lone Mountain has ever produced and the second, 4249B, measured 39.72% IMF, and both were 31-month-old heifers. In the 2019 Lone Mountain Sire Performance Study, 1441Y ranked NUMBER 1 for IMF at an average of 39.54% and Number 2 for Marble Fineness. His dam also brings much value to the pedigree through WK Michifuku and 4053A bringing TF146.

• Top 2% IMF – that’s a whole lot of marbling potential and may be one the top, if not the top IMF EPDs in the entire offering. This bull’s sire, Suzutani, is an elite pedigreed son of Itoshigenami TF148 and from the Suzutani maternal line. He is an amazing combination of low birth weight, positive growth and carcass weight, large ribeye area and high marble score. SUZUTANI has multiple GEBVs traits and indexes in the top 1-10% of the breed! This bull’s dam brings not only 068 but also 3024Z to the mix. 3024Z brings both Shigeshigetani and royal donor dam, 035X.

• If you want a direct son of a past top marbling sire and a sire that has beyond proven himself to consistently pass marbling onto his progeny than this is the bull for you. His direct sire is the original WK Sanjirou – a Tajima bull that was bred to be a marbling machine. This bull sits in the top 4% for IMF EPD, the top 10% for FAT EPD and the top 20% for REA EPD. WK Sanjirou is coupled with some other breed phenoms in this pedigree that include, 068 but also 3024Z to the mix. 3024Z brings both Shigeshigetani and royal donor dam, 035X.

• Another great son by WK Sanjirou and one heck of a stud in person; this range ready bull has all the marbling giants in his pedigree. The collaboration of WK Sanjirou with Itoshigefuji and Itoshigenami is a dream mix of high marbling genetics. Not only is the abundance of marbling going to be high, but the overall marbling and carcass quality found in these genetics is the best we have seen and the most proven we have consistently seen. His most recent weight was a whopping 2,140 lbs. on an extremely long spine. His dam has produced one of the top 3 carcasses to date at Double W and is the grand dam to the 269J, 210 and 238 (seen here)

• Here we have an AA for SCD red bull – very rare to find this in the red Wagyu section but here we have it. This big square hipped prospect is sired by Red Emperor; one of Big Al's most famous sons. The pedigree represented here brings some of the best that the red world has to offer to one fantastic tabulation. His sire is known to add extra depth and pounds plus marbling into his calves. His growths EBVs are consistently high and he sits in the top 1% for both Milk and Scrotal Size. His dam is by Tamamaru who is considered as the greatest marbling red sire, with proven ability to impart high MS, Growth and Milk performance values into his progeny.

• The sire of this bull is Red Emperor; one of Big Al's most famous sons. His sire is known to add extra depth and pounds plus marbling into his calves. His growths EBVs are consistently high and he sits in the top 1% for both Milk and Scrotal Size. As you can see, the growth potential here is huge with growth EPDs in the top 15% while Milk sits pretty in the top 20% along with a TM EPD in the top 15%. This bull's direct dam is a Rueshaw daughter. Rueshaw semen sells for \$40,000 or higher per unit and holds tremendous value in the red Wagyu world. Rueshaw was the Japanese Red National Champion Bull in 1975. He originated from the Kumamoto Region, the heart of the Japanese Akaushi breeding capital. To add the icing to the cake, this bull is a AA / 7 combo!

• The sire of this sound and stout red bull is Primetime; a Big Al and Z Cow son. He combines the proven performance of breed leader Big Al with Rueshaw's outcross yet high performance carcass and marbling traits. This is an ideal sire to build a branded beef or value-added program around. He brings consistent carcass traits without sacrificing performance on growth or maternal traits. This influence make this bull hold the growth card as he sits in the 10% for both WW and YW EPDs with a Milk EPD in the top 10% and TM EPD in the top 5%. His dam brings to us Judo; imported with Rueshaw into America in 1976 for research purposes. He is an outcross to the 1994 importation of reds.

• LMR Bond 2691K is a next generation carcass first Bond son that combines the breeding of Bond on the top side over a L10 sired female. This bull will work perfectly on your United females and will add carcass merit to every mating. He posts an impressive Top 1% for MS (+3.3), F1T (\$280), and EMA (+12.7) while still posting Top 5% numbers for MF (+.44), RBY (+1.7), and FTI (\$267). This bull combines super elite carcass numbers with a pedigree stacked with Itoshigenami JNR. Safe for heifers; free of recessives; ready to breed.

2691K's dam, LMR Ms Mayura 0550H's is a young L10 bred donor that has a very balanced EBV profile and is the progeny of a very interesting sire stack of L10 X Westholme Hirashigetayasu Z278 X Yasufuku Jr. 0550H's dam, LMR Ms Hirashigetayasu Z278 9312W, had an outstanding record at LMR as a donor producing 55 viable embryos in 7 flushes. Additionally, 0550H's full sibling produced a carcass that achieved 45.32% IMF.

2691K sells full interest full possession.

• An own son of the great TF Yasutani – you don't come across this opportunity very often. This brings a great deal of positive traits to the table and one very important one being maternal ability. Also seen in this pedigree and a rare sire with tremendous value is the direct dam's sire, Genjiro. The dam herself is a royalty as she carries the influence of two breed queens in one pedigree with WK Okutani and WK Suzutani. Not only with all these bloodlines coming together bring exceptional marbling, these genetics have been proven to increase the type of marbling that is sought after – fine snowflake type marbling. This bull here excels in both his EPDs and EBVs. He is in the top 10% for EMA, the top 15% for MS and in the top 10% or better for all Index Values. When it comes to growth he is on the right side of the graph for WW and YW in the top 20%. He is in the top 30% for TM and REA and in the top 20% for IMF.

• This bull carries an extra punch when it comes to complete carcass merit through the bloodline that make up his pedigree; WK Michifuku, Itoshigenami and WK Sanjiouro. This shows in his EPDs as he is in the top 10% for IMF and in the top 20% for REA. His direct sire, 3500A is the result of a brilliant Tajima breeding. The dam of 3500A is a half sibling to WKS Nakayuki, the mother of WKS Kitaguni Jr and in the Wagyu breed maternal influence is always a key contributor to genetic progress.

• This bull sits in the top 20% for GL, top 10% 400 and 600 Day Wt, top 15% CW, top 15% MS and top 5% MF. All this with an SRI in the top 5%, a FTI and FITI in the top 10% to add even more excitement. When it comes to his EPDs, he is in the top 20% for both WW and YW, in the top 30% for TM and REA and in the top 10 for IMF. All this comes together to make this a multi trait phenom. His sire was bred to create an individual just like this as he double dips in traits and along with this bull's direct dam bringing the heat in the growth and carcass departments, it is no wonder why this prospect is such a standout.

• This bull's sire, 073H, is the record setting L10-sired bull from the 2022 M6 sale and sold for a record \$190,000 for 50% interest. 073H is a generational breeding tool with growth and marbling that will transform efficiency in the Wagyu industry in North America. He is free of all genetic conditions. He is elite on BREEDPLAN in size, growth, marbling and carcass qualities. His son here excels in multiple traits with 200, 400 and 600 Day Wts in the top 5%, a MCW in the top 15%, positive for Milk, CW in the top 5%, RBV in the top 10% and all Index Values in the top 10% or better. His EPDs read well with huge growth including a WW and YW EPD in the top 1%, TM EPD in the top 1%, Milk EPD in the top 3% and an REA EPD in the top 10%.

• A son of the bull known to be the best bull to leave Japan; WK Michifuku is a sire that has beyond proven himself as a great marbling sire. This pedigree being offered here brings a balance to the high marbling genetics through the direct dam. With the influence of Hirashigetayasu in the dam's pedigree, the growth and maternal ability enter the picture to make an overall balanced individual. When it comes to EPDs, this bull looks great as his REA EPD is in the top 15% and his IMF EPD is in the top 20%.

• The sire of this bull is known for his calving ease ability, huge EMA and exceptional marbling. WK Shigeshigetani is not only the direct sire of this bull but also in the pedigree of this bull's direct dam. This double bred Shigeshigetani is mixed with Hirashigetayasu which adds growth and performance but also most importantly, he is a sire known to add maternal ability through Milk. This bull reads well as he is in the top 15% for his BW EPD, the top 10% for both his REA and FAT EPDs and has a huge IMF EPD in the top 4%.

• Here is the show stopper!! A Mayura Notorious son that is TOTALLY GENETIC CONDITION FREE, there are only 8 sons in Breedplan that are condition free. He is not only phenotypically a phenomenal, bull with great conformation, structural type and awesome feet, but his EBV's are nicely balanced across weights, EMA, Marble Score, Marble Fineness and milk. Verstappen has every bit of magic in his pedigree. With that same Maternal line as 210K, the Wyndford Female earlier in the catalogue, he has that M6 Ms Hirashigetayasu 890F touch to his pedigree this maternal line is full of size and milk with moderate EMA and MS and a pedigree packed with foundation sires such as Itozuru Doi, World K's Michifuku, Kiteruyasudo and Hirashigetayasu J2351. Not only is her pedigree packed with superstars, she produces them too... M6 Ranch Ms Hirashigetayasu 890F is the dam of 209K and Mr Universe sold back in 2022 for \$195,000. His Sire Mayura Notorious needs no introduction, he is a superstar of the breed and this genetic condition free son Verstappen would be a serious addition to any herd!

• 2019 Houston Grand Champion Akashi bull and 2019 Silver Medalist Wagyu Champion of North America, JVS Big Al E58 ET is a phenotypic powerhouse and everything we come to expect out of a direct Heartbrand Big Al son. The balance and structure of HB Big Al is on full display here. Where this pedigree truly turns interesting is through the dam's pedigree. The dam of JVS E58 is ROA Miss Shige who is the full sister to VBV ROA Red Galaxy. Other full siblings to JVS E58's dam include VBV ROA Akahime who was the high selling Akaushi heifer of the 2012 TWA Steaks are High sale selling for \$44,000. Additional full sibling and half sibling standouts include VBV ROA Akabana, VBV ROA Akabashi, IWG Ms Judo 82Z, ROA Kalanga Star of Maru, FAC Big Al, and BSF Prince Albert. This dam line pedigree is steeped with performance. JVS Big Al E58 is the perfect calving ease bull as we have never had to pull a single calf by him and his BW average is 59#; we have used him to breed heifers for the last several years. JVS Big Al E58 birth weight average is 57 lbs making him a perfect candidate to join with heifers.

## Female Sexed

• Here we have a pairing of the most celebrated Westholme gets and foundation genetics known to produce the excellent carcasses; Hiramichi Tsuru X Kimitofuku. Hiramichi Tsuru is one of Westholme's best proven all-round sires. He has breed leading Australian EBVs and is one of only 5 sires with the combination of 1.2 MS, 44 CW, and 4 Milk. His semen is virtually impossible to find and has sold for up to \$2,000/straw at Auction! This mating adds the growth and positive Milk plus we know that these bloodlines create the best of the best marbling genetics.

• With limited progeny out there, TF146 genetics are highly sought after as a source of foundation genetics that doubles up Yautani Doι J472 into one pedigree. The more J472 in a pedigree the more prolific the high marbling tendency and this is a rule of thumb to the most serious of Wagyu breeders. This mating highlights another great foundation sire through the featured donor dam with Kimitofuku. Kimitofuku is proven to sire progeny that exhibit snowflake marbling and an abundance of it. This is as exciting of a mating full of foundation pedigrees that has been offered in a while.

WESTHOLME  
HIRAMICHI TSURU

• Here is a chance to acquire rare and breed leading Westholme genetics. Westholme Hiramichi Tsuru hails from the renowned, high Kedaka, Hatsuhi maternal line. He is a Breedplan leader in growth traits, carcass weight, marbling, and Self Replacing Index among all proven sires. Semen from this bull has sold for \$3,500 per straw. Westholme no longer sells any semen on this bull. He is widely regarded as one of the best proven sires in the entire Westholme program. The female to these embryos is the largest female in the Pacific Rogue Wagyu herd. She brings great size while delivering very high grade carcasses. This comes from her sire TF-Itomichi 1/2. This bull produces quality carcasses with large frame size. He consistently increases mature size and growth rate without reducing marbling. He adds good maternal traits including very good milking ability in his female offspring. He is sired by the great Itomichi, one of seven sons out of more than 1,000 to outperform his sire, Dai 7 Itozakura. Her dam was a donor cow from the renowned crescent harbor ranch! CHR MS Michifuku 433. She is loaded with some of the highest marbling and carcass genetics including Michifuku and Kitaguni jr.

TYDDEWI N4431

• Sired by Tyddewi N4431, a son of the breed leading sire Mayura Itoshigenami JNR. Itoshigenami JNR semen is currently not available on the market and recently 2 straws sold to high of \$70,000 per straw! Mayura Itoshigenami JNR carries elite high reliability EBVs because of his superior carcass data. In Mayura Station herd he has averaged a 9.05 MS, 448 kg (986 lbs. ) HCW, and 109.0 cm<sup>2</sup> (16.9 in 2) EMA on an astounding 805 carcass harvested at just 26 months. This makes Tyddewi N4431 a unique combination of elite Mayura Station and Westholme bloodlines. Through his dam Westholme J0147, he receives growth and carcass traits from the top Westholme lines of Yoshifuji 8 and Yamafuji. These are two high Shimane influenced (through Dai 7 Itozakura) Westholme foundation cows. N4431 has massive genomic figures; he currently has a Breeder Index Value of +\$289 and a Self Replacing Index of +\$ 299. The first carcasses have finally hit the rails and are top shelf to say the least. How do you decide which animals to flush in your herd? Do you look at conformation, physical size, disposition, SCD/tenderness, parentage? When you are one of the oldest continuous Wagyu breeders in the US and world you have quite a few tools in your toolbox to choose from. The Knox family, located in beautiful coastal Oregon, and their associated family beef business, Pacific Rogue Wagyu, use more than two decades worth of carcass information and data. Yasufuku-B82 (FB 21585). 82, as she is called by the Knox family members, is the #1 marbling cow in their herd in terms of carcass data with over 400 carcasses analyzed. In addition to excellent carcass data, 82 is possessive of an SCD of AA (the most favorable) AND a tenderness numerical value of 9 (amongst the highest possible). \*Meat photo is from FB21585 X FB8979. FB8979 semen is also being offered in this sale by Pacific Rogue Wagyu.

M6 GROW AND GRADE  
710E

• M6 Grow & Grade 710E ET is an AA-9 bull. G&G has the conformation box checked. He was the Grand Champion Black Fullblood Wagyu bull at the 2019 North American International Livestock Exposition (Louisville), Reserve Grand Champion Black Fullblood Wagyu bull at the 2020 National Western Stockshow (Denver), and the Grand Champion Black Fullblood Wagyu bull at the 2020 Houston Livestock & Rodeo Show. In terms of carcass traits, G&G has that box checked as well. G&G had the LOWEST (-2.69) Residual Feed Intake (RFI) in the entire 2018 M6 bull sale offering making him #1. He also had the highest Average Daily Gain (ADG) making him #1 in that category as well. Finally, he also was #1 in the Ribeye (REA) category as well. The donor dam of these unique embryos come from the Knox families female PRW MS. Hirashigetayasu. She makes Marbling, Growth and Feed Efficiency an art form. This female combines calving ease, growth, maternal value and carcass quality in a package that is quiet, stout, deep bodied and in an aesthetically pleasing design. She is an AA-6 and is tested free from all recessive disorders. The combination of Itozuru Doi/Sanjirou and Hirashigetayasu is the reason this special female ranks in the top at Pacific Rogue Wagyu.

• Arubial United P0342 has proven that he is the champion for combination traits in Wagyu. No other sire comes close to the accuracy rates he has across all categories for growth and carcass traits. As of March (Run 2) Breed Plan 2024, he has 1,783 progeny analyzed across 112 herds. P0342's top 1% genetics for Growth and top 5% for Marbling and Marble Fineness show how unique and special his influence is. The dam of these embryos is an AA9 1,200 lbs. She was the high-selling bred heifer at the 2017 TWA Sale. She is high-growth, has high milk, and averaged 17 quality embryos on 8 flushes. Three of her female offspring sold for \$12,500, \$10,000, and \$12,500 at the 2021 M6 Ranch Dispersal sale. Her offspring are well-made and balanced. Lastly, in the Sire Summary of the February 2024 EPD Run, from the American Wagyu Association, one of her male offspring is the #3 ranked Trending Total Maternal Sire with a TM EPD of 17.8. Upgrade your herd with these amazing genetics.

• This is about as exciting mating as any. The dam is a free daughter of the all-star sire, L0010. She is square and adds Shigeshigetani to the party through her direct dam. The sire may be the hit though as he broke records in 2022 as the highest selling bull to sell in North America for \$325,000 for half interest. His full sister became the highest selling female in the same sale selling for \$400,000 for half interest. They both are so popular because their dam is a top 1% \$400,000 donor dam by Shigeshigetani and the famed 035X cow. The sire of these two is United and the sire of this mating may be the most complete United son to date – he excels in multiple traits and even leads the pack in BreedPlan. This mating will make its own waves as it is predicted to be positive for Milk, in the top 10% for EMA, in the top 2% for MS and when it comes to Index Values, this mating is predicted to have an SRI in the top 2%, FTI in the top 1%, F1TI in the top 1% and a BFI above the top 1%.

• Conventional embryos that feature the who's who of the breed! This mating in not only the perfect cocktail of L0010 and United, it combines pedigrees to incorporate the best of the breed when it comes to cow families. The sire may be the hit though as he broke records in 2022 as the highest selling bull to sell in North America for \$325,000 for half interest. His full sister became the highest selling female in the same sale selling for \$400,000 for half interest. They both are so popular because their dam is a top 1% \$400,000 donor dam by Shigeshigetani and the famed 035X cow. The sire of these two is United and the sire of this mating may be the most complete United son to date – he excels in multiple traits and even leads the pack in BreedPlan. The direct donor feature here brings to us the best bull to ever leave Japan, WK Michifuku. This only adds value that ends with this mating predicted to have an amazing tabulation that includes an EMA in the top 1%, MS in the top 1% and MF in the top 1%. All Index Values are also impressive; SRI above the top 1%, FTI above the top 1%, F1TI above the top 1%, and a BFI above the top 1%.

• Sumo Fuku K136 is sired by one of Sumo's most prominent marbling bulls: Sumo Michifuku F126 (SMOFF0126). F126 is a consistent performer, producing an average AUS M/S of 8.3 and average C/W of 436kg over 55 analysed carcasses. Sumo Fuku K136 has an enviable fertile history producing large numbers of A grade embryos from each flush. She has been joined to Sumo Michifuku P173 (SMOFF0173) who has been highlighted as one of the highest marble score ranked sons of champion sire: Sumo Michifuku F154. P173 boasts an impressive marble score (top 1% +3.1), marble fineness (top 1% +0.56) carcass weight, growth and eye muscle area performance traits, justifying his high ranking across all four Wagyu Breeder Indexes. Package includes 2 embryos frozen in ethylene glycol for direct transfer – domestic use only.

• These fullblood Wagyu embryos have huge breeding and carcass potential – ranked highly across all wagyu breeder indices. The donor female, Sumo Nami G195 maintains excellent balance across both maternal and carcass performance traits. In particular: strong Shimane influences from renowned sires: TF Terutani 40/1 and TF Kikuhana, has ensured G195's carcass weight EBV is ranked in the top 1% of the breed at +62kg. Sumo Nami G195 has been mated to Sumo Monjiro Q51, who delivers powerhouse carcass performance with top rankings in both carcass weight and marble score. Free of all recessive conditions, Q51's pedigree is a perfect example of counterbalancing carcass and maternal performance traits. Package includes 2 embryos frozen in ethylene glycol for direct transfer – domestic use only.

• In the top 10% for Milk, well above average for all growth, CW in the top 15%, EMA in the top 15% MS in the top 20% and the sire is Mr Marble! Beyond the mating prediction in BreedPlan, this mating is exciting as Mr Marble is now deceased and with only limited semen available, his WK Shigeshigetani pedigree is highly sought after. Mr Marble is the #1 highest SRI ranked Sire progeny of legendary sire WKS Shigeshigetani, one of the best rounded and consistent carcass sires. Grow, size and marbling with proven results. Recent harvest data (Feb 2024) on 26 daughters using 13 different sires yielded the following results: Camera MS% - 34.15%, Camera MS 10.07, CW 471 kgs (1036.2 lbs), Camera EMA 91.46 cm<sup>2</sup>, Age of Slaughter 945 days. Mr Marble is a top sire with some of the highest accuracies on EBV Traits. The donor dam featured here is a L0010 daughter on top of Haruki 2. This brings to us Haruki 2 twice in the mating. This mating should bring excellence in multiple traits with concentration on carcass merit and size.

• This mating double dips in traits as the BreedPlan mating predictor suggest that this mating is going to excel in multiple categories. This is a classic and much sought after United X L0010 mating that literally makes magic happen. Here this mating is predicted to sit in the top 5% for GL, in the top 5% for all growth EBVs, in the top 10 for MC, in the top 5% for CW, in the top 10% for EMA, MS and MF. When it comes to the Index Values of this mating, the SRI and FTI sit in the top 1% while the FITI and BFI sit in the top 5% making this a mating that will take any program to the next level! Beyond United and L0010 in the mating, we also incorporate 56T and the Tomiko cow family which is not only solid but beyond proven bloodlines.

Dam	FB71420	RED	
stored at: Lander Vet, Turlock, CA			

JC RUESHAW 76

**A & B** • The sire featured here is the one of the best of any red bull out there. This powerful red bull offers an unprecedented opportunity for Wagyu breeders to establish a new fullblood line to expand the limited genetic base, as his sire's genetics are extremely rare among fullbloods in North America. Semen from the sire of JC Rueshaw 76 was so highly prized that five straws sold for a record \$25,000 at the 2012 Wagyu sale and as the first to be registered in the United States, Rueshaw was the only Japanese National Champion to leave Japan. The dam of JC Rueshaw 76 is a hefty daughter of Hikari, a mainstay of Heartbrand's breeding program and her sire Hikari is a son of Dai 10 Mitsumaru, who was the best marbling red Wagyu in Japan and her pedigree also includes Judo, who is also very notable for high marbling. The donor of this mating brings to us Big AL and through him, his royal dam, Akiko. With a double shot of Hikari in this mating, you can't go wrong.

JVP FUKUTSURU-068

• The sire of this mating is truly a GOAT. JVP Fukutsuru 068 is arguably the most famous Wagyu bull in American history. The prime sire from the Tajima bloodline was exported to the United States in 1994, and he's sired by Dai 2 Yasutsuru 774. Fukutsuru is well-known for his exceptional carcass, good temperament, and large frame. The dam brings to the mating an extra punch of growth and maternal through Hirashigetayasu and Itomichi 1/2. To make a very celebrated pedigree and one that will not only perform on the scale but also on the rail.

• Limited female sexed units available in USA (Elgin) and Canada (Alta) He leads with a world leading +\$525 BFI, +3.7 MS EBV and +0.55 Marble Fineness ... top 1% is +3.7 / +0.55 respectively. LMR Samurai 1749J is a herd sire prospect who sold for a high of \$160,000 at the 2022 TWA Fall Harvest Sale. He ranks in the Top 1% for all Wagyu Indexes: BFI (\$525), SRI (\$342), FTI (\$307); and F1T (\$289). He checks all the boxes. On progeny, he passes on his marbling with two of the three currently registered progeny with +3.6 Marble Score. Samurai's dam, LMR Ms Itoshigenami 3447A, is an excellent donor in the Lone Mountain program, ranking in the Top 1% of MF EBV (+.40), and in the Top 5% for MS EBV (+2.3). 3447A has produced 17 calves including a steer by Ysaufuku Jr. that yielded 51% IMF. 0652 represents rare pathfinder genetics sired by WKS Takazakura and descending from the Chisahime maternal line. LMR Samurai 1749J was sired by Mayura L0010, a bonafide rock star of the international Wagyu breed who has 1733 progeny registered with the Australian Wagyu Assoc. L0010's EBV's are based on 993 analyzed progeny and 56 carcass progeny as well as genomics. L0010's dam, Mayura H0159, reflects Itozurudoi TF151 and Kanadagene 100 bloodlines from the Aizakura maternal line.

• TF151 Itozuru Doi (FB3685) is a composite bull with a great pedigree: half Tajima, one-quarter Fujiyoshi, and one-quarter Kedaka. His Kedaka line in particular gives him a large frame (over 2,400 pounds), and his Fujiyoshi bloodline gives him excellent marbling. Itozuru Doi's sire is Itokitazuru J1081, and his dam is Yasuhime J433313. By the time experts tested his progeny and discovered his true value, the original Itozuru Doi died, leaving a limited supply of semen for breeders. Itozuru Doi passes along early maturing traits to his calves, producing daughters with great milking ability. By the time his progeny was tested and his value was discovered, Itozurudoi TF151 was deceased, leaving a very limited supply of semen.

• The sire of this bull is a full brother to the Top 1%, \$400,000 valued "3025Z" donor that produced the recent record high selling animals in North America. This last March her heifer calf sold for \$400,000 and her bull calf sold for \$325,000. The power is in the blood and this sire group, "3024Z", averaged \$14,000 in the 2022 Triangle B Ranch sale. The bottom of this bull's pedigree is just as important. The direct dam is a Lone Mountain Ranch female sired by "4P". 4P is a son of Sanjirou, a former #1 marbling sire in the US and whose full brother is the current #1 marbling sire. His dam's sire, JVP Fukutsuru 068, is perhaps the most famous Wagyu sire in U.S. history, and certainly a prime example of Tajima bloodlines. He leads all sires in marbling in all the U.S. Wagyu Sire Summaries. While all the marbling and carcass ability is covered, Bar 12P on the maternal side brings the growth and carcass weight to the party. The dam of this bull is as balanced breeding as any and married to 3024z, we have ourselves a homerun pedigree. Plus, this bull has an AA/10 SCD and Tenderness combo - even better yet.

125

stored at: Elgin Breeding Service, Elgin, TX Exportable: CSS to all countries except the EU

• Female Sexed - Newly Available!! T157K is son of top sire GRS Mr Marble K483. T157K was recently selected as an elite bull for the 2024 Elite Wagyu Sale in Australia and will participate in the AuWA 2024-2025 Progeny Test Program (PTP). He is the 2nd highest ranked (SRI) progeny male in N. America out world leading GRS Mr. Marble K483 (GRSFK0483). He is #12 (SRI) in the world for all Mr. Marble sons. He is free of all genetic conditions. His grandsire on the dam side is the world leading, Sumo F154. According to the most recent BREEDPLAN, he extremely balanced and scores SRI (+\$332), BFI (\$408), and FTI (+\$270). He leads with top 10% growth traits on 400/600/Mature Wtg and then follows that with top 5 % Carcass traits on Carcass Wtg, and top 15% on Eye Muscle Area (+6.9), Marble Score (+2.2), and Marble Fineness (+0.36). Growth with strong carcass traits built on a Shigeshigetani foundation. His sire needs no introduction. Goorambat Mr. Marble K483 (GRSFK0483) is the #7 highest SRI ranked son of legendary sire WKS Shigeshigetani, one of the most well rounded and consistent carcass sires. Mr Marble has one of the highest accuracies for all proven wagyu sires. K483's maternal sire is World K's Shigeshigestani, some would consider the best foundation sire in the wagyu breed outside of Japan. Of all Shigeshigetani son's, Mr Marble K483 is a trait leader for milk growth, CWT, and MS EBVs. This is due to his beautifully balanced pedigree featuring a combination of foundation sires - Shigeshigetani, Itoshigenami TF148, and Terutani 40/1. On the dam side is the strong Sumo donor female, Sumo Fuku K174. She is well balanced genetic pedigree of 55% Tajima and 44% Shimane/Tottori. She has a notable top 2% Marble Score (+2.9) EBV which has been inherited from a high combination of Tajima sires including Sumo Itoshigenami X81. This bull is now available in the USA and we expect to have exportable straws in the near future.

• MAYURA L0010, simply known as L10 is a Mayura bred World Super Sire. Straws of this bull are now limited in N. America. A review of April 2024 BREEDPLAN, shows him as an elite sire (with proven progeny), and one of the most well-balanced elite sires today. This world leading bull hits all four of the major profit drivers with above average accuracy levels including top 2% Marble Score (+2.9), and top 10% Eye Muscle Area (+7.7) and top 15% Marble Fineness (0.35). On the Selection Indexes, he hits top 1% on BFI (+\$474) on FTI (+\$262), top F1TI (+\$247), and SRI (+\$277). Do not miss this opportunity to add size and marbling to your herd with world class. The winning bidder will take delivery at Elgin Breeding Service

• Sadly, Mr Marble K483 passed away in September of 2023. As such, there will not be any more semen of this great sire coming to USA. GRS Mr. Marble K483 (GRSFK0483) is the #1 highest SRI ranked Sire progeny of legendary sire WKS Shigeshigetani, one of the most well rounded and consistent carcass sires. Grow, size and marbling with proven results. Recent harvest data (Feb 2024) on 26 daughters using 13 different sires yielded the following results: Camera MS% - 34.15%, Camera MS 10.07, Carcass Wtg 471 kgs (1036.2 lbs), Camera EMA 91.46 cm<sup>2</sup>, Age of Slaughter 945 days. Mr Marble is a top sire with some of the highest accuracies on EBV Traits. Globally, he leads with SRI (+\$321), FTI (+281) BFI (+\$407), and top 3% FITI (+\$251). Mr Marble has one of the highest accuracies for all proven wagyu sires. Many breeders in N. America are missing Mr. Marble K483 in their portfolio and this sire makes for an outstanding outcross. Within the top sires in the world, he sports top accuracy at 91% for Marble Score +2.1. K483's maternal sire is World K's Shigeshigetani, some would consider the best foundation sire in the wagyu breed outside of Japan. Of all Shigeshigetani son's, Mr Marble K483 is a trait leader for milk growth, CWT, and MS EBVs. This is due to his beautifully balanced pedigree featuring a combination of foundation sires - Shigeshigetani, Itoshigenami TF 148, and Terutani 40/1. Mr. Marble is a trait leader in all growth traits while maintaining a +2.1 - marble score, +55 Carcass Weight and +5.9 Eye Muscle Area. ? This sire has an impressive 1425 Progeny with 485 Progeny analyzed and 59 carcass progeny spread across 55 different herds! Available both in USA (Brushy Creek). Do not miss this opportunity to add size and marbling to your herd with world class.

• A son of the super sire Sumo Cattle Co Michifuku F154 from an outcross, exclusively Westholme bred maternal line, his dam being Westholme K5241. Westholme K5241 is a rare daughter of the Westholme super bull Hiramichi Tsuru, and her pedigree is backed by 001 x 002 x 003 x original import Umeko, who was double bred to Dai 20 Hirashige and is one of the few high Kedaka/Tottori females exported from Japan. Q38 is one of the highest ranked bulls under 50% Tajima, featuring astounding 22.5% Kedaka/Tottori by blood! Q38 has been performing excellently as a sire with 230 progeny analyzed in 28 different herds! His wide use and recording in the AWA Progeny Test Program and many herds has resulted in high accuracies that inspire confidence in the reliability of this outstanding sire. He is a stand out curve bending sire with the desired low Birth Weight (+1.8 at 94% accuracy) to high growth 200/400 Day Weight EBVs (+20 200D Wt at 95% accuracy)! His calves are outstanding progeny in the paddock and in the sale ring. One of the 1st Q38 sons to sell, topped the 2023 Trent Bridge Wagyu Bull Sale at \$70,000! Q38 has been throwing high genomic progeny at a fantastic rate illustrating his ability to transmit elite genetics to the next generation. This is a quality that cant be overlooked!

• HB Red Emperor died in 2020 so remaining semen on this great Red sire is in limited supply. Red Emperor is a son of the legendary Big Al who was the first Red Wagyu bull born outside of Japan. His sire, Dai Mitsumaru 76 ranked #1 in the Japanese Red Wagyu Directory with A4 and A5 carcasses. His dam is one of the best Red Wagyu cows in US History, Dai 8 Marunami. She was imported into the USA in 1994 as part of the Kumamoto Prefectural Cattle Improvement Project. Her Sire Dai 3 Mitsumaru 30 was ranked 3rd in the Japanese Red Wagyu Registry with A4 and A5 carcasses. The value of his progeny will make money for programs for years to come. Red Emperor makes amazing calves appreciated by any cattleman.

• LMR Kenroku 1779J is the top Shigeshigetani sired herd bull at LMR. Kenrokue is FREE of all recessive defects and has impressed at every turn of his development. He is a breed trait leader for both MS EBV (+3.1) and EMA EBV (+13.3) while also ranking in the Top 5% for ALL Wagyu Indexes: SRI (\$325), FTI (\$279), FIT (\$271), and BFI (\$384). He is the ONLY Shigeshigetani sired bull registered with the Australian Association to be equal to or better than a BFI of \$384, MS +3.1, and an EMA of +13.3. Kenroku's pedigree stacks Shigeshigetani over LMR Ms Itoshigenami 9320W, a stellar donor in the Lone Mountain program. He exhibits a wonderful EBV profile and combines TF148 and Sanjirou in his pedigree. The semen is ready for export and is CSS certified.

• LMR Wakura 2781K is a top herd sire prospect and one of the top JNR offspring in the US. He is a standout for BFI at \$471. He also ranks into the Top 1% of the breed for MS (+3.6) and FIT (\$282) and the Top 5% for SRI (\$302), FTI (\$282), EMA (+9.3), and MF (+.47). Wakura is an incredibly balanced sire that even brings a positive Milk EBV of (+1). Rarity, quality and completeness abound in this superb LMR sire.

2781K's dam, LMR Ms Mayura 0506H, is an excellent L10 donor who sold for \$67,500 at the 2022 Passion for Prime Sale. Her dam, LMR Ms Shigeshigetani 3443A, is proving to be a superior donor in the Lone Mountain program, ranking in the Top 5% for FTI (\$248) and FIT (\$246); Top 10% for EMA EBV (+7.6) and SRI (\$272); and Top 15% for MS EBV (+2.2). 3443A has produced 57 viable embryos to date and is the dam of LMR super donor, LMR Ms Bond 2238K.

• WKS Yasufuku Jr has been a mainstay in the Lone Mountain breeding program with great results. This high Tajima sire (87%) stamps his progeny with marbling and eye muscle area. He is near the top of the Lone Mountain sire summary averaging nearly 34% IMF on 136 carcasses evaluated. His EBVs are impressive for a bull that was born in the last century highlighted by being top 5% for EMA (+8.8) and MS (+2.7). Yasufuku Jr is the son of Yasufuku J930; linebred to Yasumi Doi J10328. In the Japanese 2001 Sire Evaluation Report, Yasufuku J930 is listed as the sire of the three highest marbling sires in Japan: 1) Yasufuku 165-9; 2) Fukusakae; and 3) Yasuhira. Offspring of Yasufuku 165-9 produced one carcass that sold at auction for \$97,000 at the 2007 All-Japan Wagyu Competition. Kenichi Ono considers Yasufuku Jr's sire, Yasufuku J930, to be the very best of Wagyu in all of Japan - and says, "There is only one Yasufuku and Shigeshigenami."

• MFC Kimitofuku 434B is ranked in the top 4 IMF bull sires in the 2021 Lone Mountain Sire Performance Study! His sire, TF 813 Kimitofuku, is a very well-known herd sire owned by the Joseph Decuis Wagyu Program. TF 813 Kimitofuku's sire, Itoshigenami, was according to David Blackmore, one of the very best bulls ever exported from Japan. Itoshigenami had incredible confirmation, was medium framed, and was 75% Tajima and 25% Itozakura. The dam of the bull featured in this lot is MFC Ms Itoshigefuji 0-23. She is sired by Itoshigefuji, a bull known to be larger framed and have exceptional average daily gain. His pedigree carries many of the original bloodlines that trace back over 300 years. There is exceptional power in the blood of this herd sire. Incredible phenotype, genotype, and free of all genetic defects including IARS. There is non-CSS semen available which tested between 77-88% for normal cells, and 58% at the one-hour freeze and 57% at the three hour mark. Also, new data has just shown a 40.9% IMF average on six carcasses sired by 434B.

• The semen being offered at today's auction is simply a rarity. 2408, has just passed away at over 15 Years! He is the FIRST male combination of this mating (151 x CF 503 x Hikokura 1/10) born in America. 10 straws of CHR Itozuru Doi (FB8789) were recently sold at the "Wagyu 365 Wagyu on the Vegas Strip Sale" for \$1,850 a straw. This classic Takeda ("Modoshi Kohai") breeding produced the 2408 bull now owned by the Knox family - a Yasumi Doi - Dai 7 Itozakura - Shigeshigenami composite. This is an absolutely sensational mating to breed any fullblood Wagyu female to and there are few, if any, male progeny remaining alive like him. Finally, 2408 is one of only two known bulls (with this mating) to be tested genetically recessive disorder FREE. Yes, that is correct; a 151 x 148 son (both carriers of F11) free of all genetic recessive disorders! Incidentally, the other genetically similar recessive free bull is the number 1 marble fineness bull in Lone Mountain's most recent (2019) sire summary. To top this off 2408 possesses an SCD of AA! The ONLY AA bull with this mating to have ever been registered!

• Female Sexed with High Growth and Marble!! A leading L10 sire on the world stage and free of all genetic conditions. He is one of the top wagyu sires (proven bull with progeny) from a breeder in the USA and also with female sexed straws. Straws available both in USA (Elgin) and Canada (Alta). R0122H was an elite selling bull (Lot 24) at the recently completed 2024 Elite Wagyu Sale in Australia selling for \$1200 a straw AUD (~\$780 USD equivalent). He also is a participant in the 2023 and 2024 AWA-AUS Progeny Test Program (PTP) as a link sire. He brings industry leading growth, size and marbling. In the recent April (run 2) BREEDPLAN, he leads with top Selection Indexes including SRI (+\$331), FTI (+\$282), FITI (+\$229), and BFI (+\$392). On individual traits, he gives you the double shot of growth and marbling with top 1% - 2% on 200/400/600Day Weights, Mature Weights and Carcass weights. He scores top 10% on Marble Score (+2.3). 0122H a son of Mayura L0010, who has changed the face of the wagyu world. ? R0122's sire is Mayura L0010 and needs no introduction with a pedigree that combines the genetics of the King of Australian Sires (JNR) with TF151 Itozurudo, Kanadagene 100, and the Aizakura maternal line. These legends of the Wagyu breed are stacked on an established, leading maternal line that has produced proven sires Macquarie Wagyu C1176, TF Itohana 2, Blackmore Aizatzurudo Y398, and Blackmore Dai Ichi Kizukura H017!

• A Grand Slam -- The Marble King plus Female Sexed!! Sexed straws available in the USA (Hawkeye) and Canada (Alta). Itoguni 308H is one of the highest Marbling wagyu sires in the world according to the most recent April 2024 BREEDPLAN with a world leading +3.8 Marble Score and +.49 Marble Fineness. In the recent 2023 TWA Fall Harvest Sale, his female progeny, WYNF22T206K sold for \$60,000. 42% of his progeny have marble scores in the top 5% of the breed with a high of +4.2 on WYNF24V004. 65% of his progeny have top 10% Marble Scores. He is the perfect blend of USA and Australian genetics. On selection indexes, he leads the world with #5 ranking sire in the world on F1 Terminal Index (+\$317) and the #16 sire in the world on Fullblood Terminal Index (+\$319). He is also top 1% on BFI (+\$473) and 3% on Self Replacing Index (+\$320). Wyndford Itoguni 308H will be a key breeding tool to inject high marbling genetics into your herd. He has been used in 16 top herds around the world and has 173 progeny and 146 progeny analyzed. He is being used in leading herds including award winning Irongate and Wyndford! This sire gives you all the marbling of Bond, yet larger size.

• A recessive free son of L0010! This bull brings not only all-star sire L0010 to the table but also WK Haruki 2 through his direct dam. WK Haruki 2 is the direct sire of the famed WK Shigesigetani – a sire known for calving ease, huge EMA and exceptional marbling. Also in this dam's pedigree is the famous Itozuru Doi. All this goodness makes a beautiful tabulation that includes a huge Milk EBV in the top 1% which many breeders should take advantage of as the breed as a whole needs to improve upon this very trait and this is the sire to do just that.

Exportable to: AUS

• This powerful red bull offers an unprecedented opportunity for Wagyu breeders to establish a new fullblood line to expand the limited genetic base of the breed as his sire's genetics are extremely rare among fullbloods in North America and JC Rueshaw has no ancestors in common with any of the other closely related Black Wagyu imports. Semen from the sire of JC Rueshaw 76 was highly valued in the 2012 American National Wagyu sale and he was the Related Red Wagyu to be registered in the United States and the ONLY Japanese National Champion to leave Japan.

• The highest BFI tested recessive free son of Itoshigenami JNR. Top 1% genomics. He is also a high SRI JNR son, ahead of breed leaders like L0010, N4451, N4431, and Prologue. R112 is a really exceptional young sire and shines on the new Breeder Feeder Index at \$469! His Breedplan balance is incredible, as he is one of only 10 Tested recessive Free bulls with his 37 CW, 10.4 EMA, 2.8 MS, and .45 MF. To further illustrate his balance, R112 is one of only 2 bulls in Breedplan of with his max 0.2 BW and minimum 2 Milk, 37 CW, 10.4 EMA, 2.8 MS. Of his 97 calves registered (March Run1 2024) 12.4% rank in the top 1% on the Breeder Feeder Index and 36% are in the top 5% on BFI. This is a great example of his elite ability to transmit superior genetics to his progeny. R112 is the highest BFI, TESTED RECESSIVE FREE son of Mayura Itoshigenami JNR, at \$469! He is also a high SRI JNR son, ahead of breed leaders like L10, N4451, N4431, and Prologue. His semen sold for \$2,750/straw in the 2022 Elite Wagyu Sale! R112 has Top 1% and balanced genomic EBVs to back up his elite sire stack of JNR x TF 148 x 003 x TF 151 x Michifuku x TF Kikuhana x TF Dai 2 Kinntou 3!! This is the maternal line of Mayura Itoshigenami JNR, TF Terutani 40/1, Sumo F126 and so many more great sires. DON'T miss this opportunity to add recessive free JNR genetics to your herd! Imagine the breeding opportunities! As a recessive free JNR son he provides breeding flexibility unlike any other JNR son. This maternal line has produced some of the best sires and dams in the world-renowned Trent Bridge Wagyu herd including the \$160,000 2023 Elite Sale heifer Trent Bridge S211, the \$75,000 2023 Trent Bridge Bull Sale topper Trent Bridge T158, and the popular sire Trent Bridge N346 (Maternal brother to R112)!

THE WRIGHT WAGYU  
MASTER CHEF E146

stored at: Hawkeye Breeders, Adel, IA

Exportable to: AUS

• From a young age he was always a most impressive looking calf and weaned a hefty 353 kgs and has been an easy doing heavy bull ever since. At 18 months he was 600 kgs 53" fat 4:3 EMA 88, IMF. 5.7 and testicles 34 cm. His mature weight for the past two years was 984 kgs. when he came in for his vaccinations in the autumn. His sire Kajikari is known for his light birth weight calves and they are structurally very correct with good depth of rib and a strong hind quarter.
