Beyond offering the Wagyu industry an incredible selection of genetics, the Bowman family also wins an award for amazing hospitality. The Bowman Farms team opened up their picturesque farm to a very excited group of Wagyu enthusiasts to take a look at the lineup of their sought after genetics. Across the way from the farm where the scenery continued to get better is where the auction took place; housed in a spectacular event venue. The large crowd took over the venue which made for a very competitive and exciting auction and when combined with a very active internet crowd, the outcome of the event made history with record averages within the breed. The final outcome was a gross over \$900,000 and animals selling to 15 different states and many parts of Canada.
