Fall was the star on sale day with Vermont in full color and the sun shining brightly; the scene was absolutely spectacular! The hospitality was also on point with an amazing social and Wagyu tasting on Friday night with an amazing spread for lunch on sale day. The barn seats were full and the online platform was very active. Many cattle went north of the border in four very active buyers and as far south as Tennessee. In all, a very successful event for Vermont Wagyu and their guest consignors.
