The third ever Bar R Cattle Company production sale was a huge success. Not one seat was open during the auction and the online attendance was also very large. The hospitality from the entire Reeves family was tremendous with a Friday night event and of course, a sale day lunch. Records were shattered as the auction sold the highest selling bull and female to date in open auction for the Wagyu breed. A very competitive bidding and fun crowd made for an extremely exciting auction. In the end, genetics went to 8 different states and Australia.
