June 20th was a blessed day. The rain the day before settled the dust and cooled the air for a fabulous event. With over 200 people in attendance and well over 250 online, the Bar V dispersion sale was a much sought after opportunity for many. Animals sold to Germany, Canada and Australia as well as to 22 states from coast to coast. The day brought many exciting moments including a record breaking top selling fullblood Wagyu bull in the US. We thank everyone that was there, either in person and online, as well as the team of people that were responsible for making the day a huge success.
