#11 TOP Marble Score female in the US! With a 4.6, this Itoguni daughter follows right in her sire's footsteps with extreme marbling ability. It doesn't stop there with a Top 1% EMA coupled with her Top 3% Marble Fineness, this female screams immense carcass quality. With Index values ALL in the Top 1%, we have ourselves a donor prospect ready to be paired with just about any sire.

Another great high caliber carcass maker. With a Marble Score in the Top 1% and both a Marble Fineness and EMA in the Top 2%, the high quality carcass genetics carries on through her direct sire and the United/L0010 combination making up the maternal side of the pedigree. With ALL three indexes in the Top 1%, this female should be on everyone's most wanted list.

A full sister to the "B" female and a paternal sister to the "A" - again bringing a power punch in the carcass department with a Top 1% Marble Score, Marble Fineness and EMA. With a Top 1% in each of her index values, she too is on point and will make this choice lot the hardest decision of the entire auction.
